## FOREWORD

A survey of scientific libraries in Thailand made by the Thai National Documentation Centre enabled the Centre to compile a union catalogue of "Scientific Serials in Thai Libraries" which was published in 1968, revised in 1972 and led to the compilation of a Directory of Scientific Libraries in Thailand here presented.

Only accessible libraries are listed in this Directory while private collections or inaccessible libraries are not included. They consist of 52 libraries alphabetically arranged by names, 25 of which are affiliated to academic institutions, 21 are parts of government agencies while some of the remaining libraries are operating independently and some belong to foreign or international organizations. All data are collected through questionnaires sent out by the Centre on 31st July, 1972 and are compiled by Mrs. Somchit Yanyong, with the assistance of Miss Karnjana Vorasombati.

The Thai National Documentation Centre hereby records its grateful thanks to the librarian and staff of each library concerned for their supplies of information contained in this Directory.

Chalermvarn Choosup  
Director  
Thai National Documentation Centre

Bangkok

1973
